

How can my child use the Student Star?

To use the Student Star, your child needs to be getting one-to-one support in a college or other educational setting. Talk to your child's keyworker, tutor or other professional to find out more.

Information sharing

The service you are accessing is obliged to share information if there are any concerns about the safety and/or well-being of a child, young person or adult and there are clear reasons for doing so which are in their best interests. Information may also be shared to ensure that you and your family are getting the right services.

The information gathered on the Star is recorded and will be securely stored and used to provide services to your family. It may also be used to monitor and audit the quality of the service offered to you and your children and/or family.

Making things better one step at a time

We want all young people to develop and improve their skills so that they can do the things they want to do with their life. When things are going well, we want to celebrate that and if things aren't going so well, we need to act to get things back on track. The important thing is knowing what the next step is – and that's where the Student Star can help.

How does the Student Star work?

The **Student Star** helps us to look at what your child's life is like. It **focuses on nine areas of life** that are important to all young people such as Practical skills or Well-being.

Each area comes with a five-step scale called the Journey of Change (shown on the next page) and each step has a different colour. We will look at the different areas of your child's life with them and together, decide which colour step they are on. This helps us work out what needs to happen next to improve things for your child and your family.

Together, we will mark their colours on the Star at different times, and as things get better, their Star shape will get bigger.
